Performance

During the Financial Year under review, the Total Revenue was Rs. 390.75 Million as compared to Rs. 500.99 Million in the previous year. The profit for the year before Interest, Depreciation, Taxes and Amortisations (EBIDTA) was Rs. 197.46 Million as compared to profit of Rs. 248.55 Million in the previous year. The profit after tax was Rs. 127.79 Million as compared to profit of Rs. 165.16 Million in the previous year, a decrease of 22.63%. The Total Comprehensive Income was Rs. 128.90 Million as compared to Rs. 164.60 Million in the previous year, a decrease of 21.09%.

The performance of the Company was affected due to the outbreak of Covid-19 in the early part of the year 2020. The prolonged lockdown and consequent travel restrictions to avoid spread of Covid-19 pandemic imposed by the Government of India as well other countries globally, almost all business segments i.e. corporate, leisure, MICE and direct business were severely impacted. The hospitality industry, in general has been severely impacted in terms of occupancy, ARR, RevPAR, turnover and profitability. Due to travel ban by several countries foreign travellers coming to India has become almost negligible. This has severely impacted the hotel industry in the Financial Year 2020- 21. However, when the Covid-19 pandemic started declining in November 2020, the domestic travellers improved occupancy of the hotel resulting in a reasonably good performance by the Company in the Financial Year. However, with the resurgence of Covid-19 in several countries, the hotel and tourism industry is expected to remain under pressure.

A note on the impact of Covid-19 on the Company's operations is given in Note No. 45 of the Notes to the Accounts.

The Company and the Hotel have taken various initiatives to protect the Health and Safety of Guests and Employees. All precautions as per the World Health Organisation Guidelines and directions of the Central and State Governments have been implemented and are being strictly adhered to including to the following steps:

- All public areas such as Restaurants, SPA, Gym, swimming pool etc. made non-operational;
- Hotel kept operational through minimum possible team strength for carrying out repair and maintenance work;
- Temperature measuring devices provided at the hotel for continuous monitoring of guests and employees;
- General Manager of the Hotel is in continuous touch with local health officials for implementation of necessary guidelines.

Directors' Responsibility Statement

In accordance with the provisions of Section 134 (5) of the Companies Act, 2013 ("the Act"), and based on representations from the Management, the Board states that:

- a) in the preparation of the annual accounts, the applicable Accounting Standards have been followed and that there are no material departures;
- b) the directors have selected such accounting policies and applied them consistently and made judgements and estimates that are reasonable and prudent, so as to give a true and fair view of the state of affairs of the Company as at the end of the Financial Year and of the profit of the Company for that period;
- c) the directors, to the best of their knowledge and ability, have taken proper and sufficient care in maintaining adequate accounting records in accordance with the

provisions of the Act and for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

- d) the directors have prepared the Annual Accounts of the Company on a "going concern" basis; and
- e) the directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

The Company is a subsidiary of EIH Limited, the holding Company. EIH Limited has in place a comprehensive Risk Management policy, framework and risk committee which is made applicable to the Company's hotel, Wildflower Hall and the Company. The risk, if any, on the Company and the Company's hotel is monitored periodically and reported to the Board.

Energy Conservation Measures

During the year, focussed energy conservation efforts in hotel wildflower hall continued. By careful consideration, several conventional lamps were replaced with energy efficient LED lamps. The hotel was closed during the lockdown period from April 2020 to August 2020. An advanced action plan for controlling energy consumption was activated much prior to lockdown. The plan included steps for creative and smart adaptation to the unfolding situation. Building systems were operated at minimum levels mandated for maintaining safe and hygienic environment. At the same time, an operation and maintenance strategy was implemented to ensure periodic maintenance of plant and machinery. This warranted that all equipment were kept in the most efficient state by carrying all maintenance routines.

Furthermore, when the hotel was re-opened in September 2020, energy conservation measures like tight operational control of lighting and other equipment, regulation of air conditioning set points according to ambient temperatures, taking guest floors out of order during periods of low occupancy, optimization of laundry and boiler operation were continued.

With various energy conservation measures taken in the Financial Year 2020-21, the Company was able to reduce the total equivalent energy consumption by about 23.5 lakh KWh which is about 40% reduction over the preceding Financial Year. The reduction in fuel oil consumption by about 1.25 lakh litres has also resulted in reduction of our carbon dioxide emissions by about 4.35 lakh kg in comparison to the previous financial year.

Some of the actions planned for the next year are replacement of remaining conventional lamps with energy efficient LED lamps, installation of heat pumps in place of conventional fuel based water heaters, installation water flow optimizers in taps.

Operational measures include setting of benchmarks with respect to the current year with targets for increased savings, initiatives by energy conservation committees comprising of cross functional groups, close monitoring and performance evaluation of plant and machinery by conducting regular self-audit and up gradation of plant room equipment.

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MASHOBRA RESORT LIMITED
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **MASHOBRA RESORT LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to Note 17 of the financial statements regarding disclosure of advance towards equity shares pending settlement of legal issues between Government of Himachal Pradesh and EIH Limited and Note 3(ii) regarding ongoing litigation between EIH Limited, the Holding Company and the Government of Himachal Pradesh. The said notes describe the uncertainty related to the outcome of the above legal matters and accordingly the impact, if any, on the financial statements has not been ascertained. Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to
 design audit procedures that are appropriate in the circumstances. Under Section
 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the
 Company has adequate internal financial controls system in place and the operating
 effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "ANNEXURE A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:
 - In our opinion and to the best of our information and according to the information and explanations given to us, no remuneration has been paid by the Company to any of its directors. Accordingly, the provisions of Section 197 of the Act relating to remuneration to directors are not applicable.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements Refer Note 36, 3(ii) and 17 to the financial statements;
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses- Refer Note 31(B) to the financial statements;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company- Refer Note 43 to the financial statements.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order/CARO 2016") issued by the Central Government in terms of Section 143(11) of the Act, we give in "ANNEXURE B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MASHOBRA RESORT LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3)provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

General Information

MASHOBRA RESORT LIMITED is a Company limited by shares, incorporated consequent upon a Joint Venture Agreement between EIH Limited and Government of Himachal Pradesh and domiciled in India having its registered office at Wildflower Hall, Chharabra, Shimla. The Company is primarily engaged in owning premium luxury hotel under the luxury 'Oberoi' brand.

Note 1: Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements of Mashobra Resort Limited. These policies have been consistently applied to all the periods presented, unless otherwise stated.

a) Basis of preparation

- (i) Compliance with Indian Accounting Standard (Ind AS) The financial statements have been prepared in accordance with Ind AS prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015 as amended, and other accounting principles generally accepted in India, as a going concern on accrual basis.
- (ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- defined benefit plans plan assets measured at fair value
- customer loyalty programs
- (iii) Use of estimates

In preparing the financial statements in conformity with accounting principles generally accepted in India, management is required to make estimates and assumptions that may affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities as at the date of financial statements and the amount of revenue and expenses during the reported year. Actual results could differ from those estimates. Any revision of such estimates is recognised in the period the same is determined.

b) Revenue recognition

- (i) Effective April 1, 2018, the Company had adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied contracts that were not completed as of April 1, 2018. Accordingly, the comparative information in the statement of profit and loss had not been restated. The impact of adoption of the standard on financial statements of the Company is insignificant.
- (ii) Performance obligation in contract with customers are met throughout the stay of guest in the hotel or on rendering of services and sale of goods.
- (iii) Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of trade allowances, rebates, value added taxes, Goods and Service Taxes and amounts collected on behalf of third parties.

Notes to the Financial Statements - - Contd.

(iv) Revenue from interest is recognised on accrual basis and determined by contractual rate of interest.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Timing of revenue recognition from major business activities

- Hospitality Services: Revenue from hospitality services is recognised when the services are rendered and the same becomes chargeable or when collectability is certain.
- Others: Revenue from Shop License Fee included under "Other Services" is recognised on accrual basis as per terms of the contract.
- Revenue in respect of customer loyalty is recognised when loyalty points are redeemed by the customers or on its expiry.

c) Foreign currency translation

(i) Presentation Currency The Financial Statements are presented in INR which is the Functional Currency of the Company.

(ii) Transactions and balances

Effective April 1, 2018, the Company had adopted Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration which clarifies the date of transaction for the purpose of determining the exchange rate to be used on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency. The effect on account of adoption of this amendment was insignificant.

Sales made in any currency other than the functional currency of the Company are converted at the prevailing applicable exchange rate. Gain/Loss arising out of fluctuations in exchange rate is accounted for on realisation or translation at the year end.

Payments made in foreign currency are converted at the applicable rate prevailing on the date of remittance. Liability on account of foreign currency is converted at the exchange rate prevailing at the end of the year. Monetary items denominated in foreign currency are converted at the exchange rate prevailing at the end of the year.

d) Income tax

Current income tax is recognised based on the amount expected to be paid to the tax authorities, using tax rates and tax laws that have been enacted or substantially enacted on the date of balance sheet.

Notes to the Financial Statements - - Contd.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Effective April 1, 2019, the Company had adopted Appendix C to Ind AS 12 – Income taxes, which clarifies how to apply the recognition and measurement requirements in Ind AS 12 when there is uncertainty over income tax treatments.

e) Deferred Tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements using tax rates and tax laws that have been enacted or prescribed on the date of balance sheet.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax (MAT) is accounted for in accordance with tax laws which give rise to future economic benefits in the form of tax credit against which future income tax liability is adjusted and is recognised as deferred tax asset in the Balance Sheet.

f) Leases

Effective April 1, 2019, the Company had adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Accordingly, comparative information as at and for the year ended March 31, 2019 had not been restated. The impact of adoption of the standard on financial statements of the Company had been disclosed in the notes to accounts.

For leases previously classified as finance leases the entity recognised the carrying amount of the lease asset and lease liability immediately before transition as the carrying amount of the right of use asset and the lease liability at the date of initial application. The measurement principles of Ind AS 116 are only applied after that date.

MASHOBRA RESORT LIMITED Notes to the Financial Statements - -Contd.

The Company as a lessee:

The Company's lease asset classes primarily consist of leases for vehicle leases. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contact involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives and estimated restoration costs of the underlying asset where applicable. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying assets useful life.

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-inuse) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Notes to the Financial Statements - - Contd.

To determine the incremental borrowing rate, the Company:

where possible, uses recent third-party financing as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;

uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing, and makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Lease liabilities and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

These lease payments would comprise:

Fixed payments (including in substance fixed payments) less any lease incentive receivable;

Variable lease payments that are based on an index or a rate;

amounts expected to be payable by the lessee under residual value guarantees;

the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and

Payment of penalties for terminating the lease when the Company is reasonably certain to exercise the exit option at the lease commencement date.

The Company applies the practical expedient by the standard allowing not to separate the lease component from other service components included in its lease agreements. Accordingly, all fixed payments provided for in the lease agreement, whatever their nature, are included in the lease liability.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right of-use asset arising from the head lease.

For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income.

g) Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Assets that suffered an

Notes to the Financial Statements - - Contd.

impairment are reviewed for possible reversal of the impairment at the end of each reporting period. In case of such reversal, the carrying amount of the asset is increased so as not to exceed the carrying amount that would have been determined had there been no impairment loss.

h) Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash in hand, cash at bank and other deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

i) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

i) Inventories

Inventories are valued at cost which is based on Cumulative Weighted Average method or net realisable value, whichever is lower. Unserviceable/damaged/discarded stocks and shortages are charged to the Statement of Profit or Loss.

k) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will be recorded in profit or loss. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit or Loss.

Notes to the Financial Statements - - Contd.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/ (losses) in the Statement of profit and loss.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 31 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Notes to the Financial Statements - - Contd.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Income recognition

Interest income: Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

l) Financial Liabilities

Borrowings, trade payables and other financial liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost. Any discount or premium on redemption/settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet. Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled and on expiry.

m) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation. Historical Cost represents direct expenses incurred on acquisition or construction of the assets and the share of indirect expenses relating to construction allocated in proportion to the direct cost involved.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Capital work-in-progress comprises the cost of property, plant and equipment that are not yet ready for their intended use on the reporting date and materials at site.

Transition to Ind AS

Effective 1 April, 2016, the Company had adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with 1 April, 2015 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

MASHOBRA RESORT LIMITED Notes to the Financial Statements - -Contd.

On transition to Ind AS, the Company had elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant and equipment other than land, the hotel buildings, and leased vehicles and equipment is provided on 'Straight Line Method' based on useful life as prescribed under Schedule II of the Companies Act 2013. Leased vehicles are depreciated over the lives of the respective asset or over the remaining lease period of the respective asset whichever is shorter.

The hotel buildings are depreciated equally over the balance useful life ascertained by independent technical expert, which is 57 years with effect from 31 March, 2018 and is higher than those specified by Schedule II to the Companies Act; 2013. The management believes that the balance useful lives so assessed best represent the periods over which the hotel buildings are expected to be in use. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

n) Intangible assets

Intangible Assets are stated at cost less accumulated amortisation and net of impairments, if any. An intangible asset is recognised if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and its cost can be measured reliably. Intangible assets are amortised on straight line basis over their estimated useful lives.

Transition to Ind AS

On transition to Ind AS, the Company had elected to continue with the carrying value of all of its Intangible assets recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the Intangible assets.

o) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

p) Borrowing costs

Notes to the Financial Statements - - Contd.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of respective assets during the period of time that is required to complete and prepare the asset for its intended use.

Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other borrowing costs are expensed in the period in which they are incurred.

q) Provisions, contingent liabilities and contingent assets

Provisions are recognised when there is a present legal or statutory obligation or constructive obligation as a result of past events and where it is probable that there will be outflow of resources to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

Contingent liabilities are recognised only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

Contingent assets where it is probable that future economic benefits will flow to the Company are not recognised but disclosed in the financial statements. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

r) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Post-employment obligations

The Company operates the following post-employment schemes:

Gratuity obligations -

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of changes in equity and in the balance sheet.

Notes to the Financial Statements - - Contd.

Leave encashment on termination of service -

The liabilities for earned leave are expected to be settled after the retirement of employee. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in other comprehensive income.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Provident Fund -

The Company pays provident fund contributions to a fund administered by Government Provident Fund Authority. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

s) Dividends

Liability is created for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity.

t) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit for the year attributable to equity shareholders of the Company
- by the weighted average number of equity shares outstanding during the financial year,

(ii) Diluted earnings per share

Diluted earnings per share adjusts the number of equity shares used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of equity shares including additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares happened.

u) Government grants / Incentives

Government grants / incentives that the Company is entitled to on fulfillment of certain conditions, but are available to the Company only on completion of some other conditions, are recognised as income at fair value on completion of such other conditions.

MASHOBRA RESORT LIMITED Notes to the Financial Statements - -Contd.

Grants / incentives that the Company is entitled to unconditionally on fulfillment of certain conditions, such grants are recognised at fair value as income when there is reasonable assurance that the grant will be received.

v) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest million with two decimals as per the requirement of Schedule III, unless otherwise stated.

Recent pronouncements

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2020 notifies new standard or amendments to the standards. There is no such new notification which would be applicable from April 1, 2021.

Notes to the Financial Statements -- Contd.

3

Significant estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides information about the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

(i) Useful life of the Hotel Building

The Company has adopted useful life of property, plant and equipment as stipulated by Schedule II to the Companies Act, 2013 except for the hotel building for computing depreciation. In the case of the hotel building of the Company, due to superior structural condition, management decided to assess the balance useful life by independent technical expert. As per the certificate of the technical expert as on March 31, 2021 the balance useful life of the hotel building of the Company was 54 years. The carrying amount of the hotel building is being depreciated over its residual life. Based on management evaluation performed at each reporting period, there has been no change in the earlier assessed useful life.

(ii) Significant and material order

The Company was incorporated consequent upon a Joint Venture Agreement between EIH Limited and the Government of Himachal Pradesh. Disputes inter se, between the two Joint Venture Partners as well as between the Company and the Government of Himachal Pradesh were referred by the High Court of Himachal Pradesh by an Order dated December 17, 2003 to an Arbitral Tribunal consisting of a single arbitrator. The Arbitrator's Award dated July 23, 2005 was challenged both by the Company and EIH Limited, amongst others, before the High Court of Himachal Pradesh. The Company continues to keep 30% of the Room Revenue in respect of the balance 57 rooms out of 85 rooms, being operated as per the directions of the High Court, in fixed deposits and current account with a Nationalised Bank, in accordance with the December 17, 2003 Order referred to above and such deposits have been disclosed in these financial statements under "Other bank balances" (Refer Note 13).

The High Court, by virtue of an order dated February 25, 2016 which was made available to the Company in May 2016, decided not to interfere with the order of the Arbitrator. The Company and EIH Limited, amongst others, have preferred an appeal before the Division Bench of the High Court of Himachal Pradesh. By an Order dated June 27, 2016, the Division Bench has stayed the Single Bench Judge Order dated February 25, 2016 and directed the parties to maintain status quo till the matter is finally heard and disposed off. The matter is pending before the Division Bench of the High Court of Himachal Pradesh for adjudication.

(i) Defined benefit plans

a) Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is an unfunded plan and provision/ write back, if any, is made on the basis of the present value of the liability as at the Balance Sheet date determined by actuarial valuation following Projected Unit Credit Method.

b) Leave Encashment

As per the policy of the Company, obligations on account of encashment of accumulated leave of an employee is settled only on termination / retirement of the employee. Such liability is recognised on the basis of actuarial valuation following Projected Unit Credit Method. It is an unfunded plan.

(ii) Defined contribution plans

The Company also has certain defined contribution plans. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the Government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is Rs. 2,37 million (for the year ended March 31, 2020; Rs. 2,89 million).

Benefit payments	3:	9		(0.08)
March 31, 2021	0.71		0.71	2.32

(iv) Post-Employment benefits

The significant actuarial assumptions were as follows:

	March 31, 2021	March 31, 2020
Discount rate	6,95%	6,66%
Salary growth rate	5_00%	5.00%
Mortality	Indian Assured Lives Mortality (2006-08) ultimate	Indian Assured Lives Mortality (2006-08) ultimate
	4 2	4.2
Withdrawal rate - 40 - 54 years	1.8	1.8
Withdrawal rate - 55 - 57 years	2.2	2.2

(v) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	Change in assumption			Impact on defined benefit obligation			
			Increase by 1%		Decrease by 1%		
	March 31, 2021	March 31, 2020	March 31, 2021	March 31, 2020	March 31, 2021	March 31, 2020	
Gratuity							
Discount rate	1%	1%	(0.14)	(0.15)	0_18	0_19	
Salary growth rate	1%	1%	0.18	0,19	(0.14)	(0.15)	
Leave encashment					1		
Discount rate	1%	1%	(0.32)	(0.44)	0.39	0,53	
Salary growth rate	1%	1%	0,39	0.53	(0.33)	(0.45)	

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method i.e., projected unit credit method has been applied as that used for calculating the defined benefit liability recognised in the balance sheet.

(vi) Risk exposure

The defined benefit obligations have the undermentioned risk exposures:

Discount Rate risk: The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase in the ultimate cost of providing the above benefit thereby increasing the value of the liability.

Liquidity Risk: This risk arises from the short term asset and liability cash-flow mismatch thereby causing the Company being unable to pay the benefits as they fall due in the short term. Such a situation could be the result of holding large illiquid assets disregarding the results of cash-flow projections and cash outgo inflow mismatch. (Or it could be due to insufficient assets/cash.)

Future Salary Increase Risk: The cost is sensitive to the assumed future salary escalation rates for all final salary defined benefit schemes. If actual future salary escalations are higher than that assumed in the valuation of actual cost, the value of the liability will be higher than that estimated.

Demographic Risk: In the valuation of the liability certain demographic (mortality and attrition rates) assumptions are made. The Company is exposed to this risk to the extent of actual experience eventually being worse compared to the assumptions thereby causing an increase in the cost.

(vii) Defined benefit liability and employer contributions

The weighted average duration of the defined benefit obligation is 24.22 years (2020 - 24.97 years) and 16.97 years (2020- 17.91 years) for Gratuity and Leave Encashment respectively.

The expected maturity analysis of undiscounted gratuity and leave encashment is as follows:

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

(ii) Assets and liabilities which are measured at amortised cost for which fair values are disclosed.

All the financial asset and financial liabilities measured at amortised cost, carrying value is an approximation of their respective fair value.

Financial risk management

The Company's activities expose it to market risk (including currency risk, interest rate risk and other price risk), liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk

The Company's risk management is carried out by a senior management team under policies approved by the Board of Directors. The senior management team identifies, evaluates and hedges financial risks in close co-operation with the Company's operating unit. The Board of Directors provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of non-derivative financial instruments, and investment of excess liquidity.

(A) Market risk

(i) Foreign currency risk

Foreign currency risk arises from future commercial transactions and recognised assets or liabilities denominated in a currency that is not the Company's functional currency (Rs.).

The exposure of the Company to foreign currency risk is not significant. However, this is closely monitored by the Management to decide on the requirement of hedging. The position of foreign currency exposure to the Company as at the end of the year expressed in Rs. Million are as follows:

		Rupees Million
Сиггелсу	Receivables	Payables
March 31, 2021		
Euro	7.ek	÷
US Dollar (USD)	2.5	0.29
Net Exposure to foreign currency risk		0.29
March 31, 2020		
Euro	321	0.08
US Dollar (USD)		2.44
Net Exposure to foreign currency risk	*	2.52

Sensitivity

If Rs. is depreciated or appreciated by 5% vis-s-a-vis foreign currency, the impact thereof on the profit and loss of the Company are given below:

	Impact on profit	
	March 31, 2021	March 31, 2020
EURO sensitivity		
Rs/EURO Increases by 5% (March 31, 2020 - 5%)	34	= 4
Rs/EURO Decreases by 5% (March 31, 2020 - 5%)		-*
USD sensitivity		
Rs./USD Increases by 5% (March 31, 2020 - 5%)	(0.01)	(0.12)
Rs/USD Decreases by 5% (March 31, 2020 - 5%)	0.01	0.12

^{*} Amount is less than Rs. 0.01 million

(ii) Interest rate risk

The status of borrowings in terms of fixed rate and floating rate are as follows:

	Rupees Million	
	March 31, 2021	March 31, 2020
Variable rate borrowings	¥	12
Fixed rate borrowings	5.00	5.00
Total borrowings	5.00	5 00

As at the end of the reporting period, the Company does not have any variable rate borrowings outstanding, therefore, Company is not exposed to any interest rate risk.

(iii) Price risk

The Company does not have investment in market quoted securities. Therefore Company is not exposed to market price risk

Notes to the Financial Statements -- Contd.

31

Financial risk management (contd.)

(B) Credit risk

Credit risk arises when a counter party defaults on contractual obligations resulting in financial loss to the Company.

Trade receivables consist of large number of customers, spread across diverse industries and geographical areas. In order to mitigate the risk of financial loss from defaulters, the Company has an ongoing credit evaluation process in respect of customers who are allowed credit period. In respect of walk-in customers the Company does not allow any credit period and therefore, is not exposed to any credit risk.

The Company does not have any derivative transaction and therefore is not exposed to any credit risk on account of derivatives,

For trade receivables, the Company has decided to provide loss allowance for lifetime credit loss on the basis of expected credit loss model. However, as per the Company's past collection history, credit risks (default risk and delay risk) are insignificant. As per the past practice, the Company's trade receivables are generally collected within the acceptable credit period. In some instances, there is a practice of delay in receipt of payment, however the quantum of same is insignificant in comparison to the total trade receivables. Therefore, no loss allowance has been provided by the Company on trade receivables under Ind AS.

(C) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. However, the Company has a past practice of maintaining sufficient liquidity (Cash and bank balances) to meet its obligation.

Further, the Company does not have significant debt liability outstanding. Therefore, the Company does not maintain any committed credit facilities or borrowing to mitigate liquidity risk as the same is insignificant as per the Company's current capital structure.

Maturities of financial liabilities

The table below analyses the Company's non-derivative financial liabilities into relevant maturity based on their contractual maturities.

The amounts disclosed in the table are the contractual undiscounted cash flows.

Contractual maturities of financial liabilities:		Rupees Million

Total non-derivative liabilities	45,35	3,82	5.00	54.17

^{*} The borrowing is repayable at the option of the Company. The management does not expect repayment in foreseeable future. Accordingly, interest component payable after 5 years has not been considered.

Capital Management

Risk management

The Company's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- · maintain an optimal capital structure to reduce the cost of capital.

The Company manages the share capital issued and subscribed alongwith shareholder's fund appearing in the financial statement as capital of the Company.

The Company does not have significant borrowings outstanding. Further, borrowing of Rs. 5 million (2020 - Rs. 5 million) appearing in the books of account of the Company is a loan from Government of Himachal Pradesh. There is no significant covenants to the loan. The loan is repayable at the option of the Company.

Leases

Effective April 1, 2019, the Company had adopted Ind AS 116 -"Leases" and applied the standard to all lease contracts existing on April I_{ψ} 2019 using the modified retrospective method.

On transition, the adoption of the new standard resulted in reclassification of Rs. 0.65 million from property, plant and equipment to right-of-use asset, reclassification of Rs. 0.18 million from other current financial liabilities to lease liabilities – current and reclassification of Rs. 0.52 million from non-current borrowings to lease liabilities – non-current. There had been no impact on the retained earnings due to application of the standard.

The following is the summary of practical expedients elected on initial application:

- Relying on previous assessments on whether leases are onerous as an alternative to performing an impairment review - there were no onerous contracts as at April 1, 2019.
- Applied the exemption not to recognise right-of-use asset and liabilities for leases with less than 12 months of lease term on the date of initial application.
- 3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
- 4. Using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment received Presidential assent on September 28, 2020. The Code has been published in the Gazette of India and subsequently on November 13, 2020, draft rules were published and invited for stakeholders' suggestions. However, the date on which the Code will come into effect has not been notified. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period in which the Code and Rules thereunder become effective.

45

Impact of COVID-19 on Business Operations

The World Health Organization declared the COVID-19 outbreak as a pandemic on 11th March 2020, leading to a series of measures by different countries across the world to contain the spread of the virus and India responded by imposing a lockdown from 24th March, 2020. The hotel operations of the Company were mandated to remain non-operational upto the third week of September, 2020 and this had a significant impact on business at the Company's hotel.

The Management does not foresee any stress on liquidity owing to the availability of liquid funds in the form of in cash and cash equivalents and other bank balances (other than earmarked bank balances) amounting to Rs. 644.93 Million as on 31st March, 2021.

The Management has also assessed the potential impact of COVID-19 including, but not limited to, its assessment of liquidity and going concern assumption, on the carrying amounts of property, plant and equipment, right of use assets, intangible assets, inventories, trade receivables and other current and non-current assets appearing in the financial statements of the Company as on 31st March, 2021, and has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amounts of these assets. The impact of COVID-19 on the business may be different from that estimated on the date of approval of these financial statements and the Management will continue to closely monitor any material changes to future economic conditions.

The Company has seen a revival in business after the opening of the Company's hotel towards the end of September, 2020 as a result of which the Company has recorded a higher revenue from hotel operations during the half year ended 31st March, 2021 as compared to the corresponding period in the previous year.
